PROFILE

Robotics & Automation Engineer with experience as a Design Engineer in the 3D printing and manufacturing industry. Skilled in Fusion 360, CAD design, product development, reverse engineering, and project execution. Passionate about developing practical engineering solutions from design to manufacturing.

EDUCATION

Madras Institute of Technology, Anna University | 2022-2026

BE. Robotics and Automation | 7.78 CGPA | 9.29 GPA

PEOPLE'S JUNIOR COLLEGE

10TH | 90.60%

RANI LAXMI BAI VIDYALAYA

12TH | 97.67%

PROFESSIONAL EXPERIENCE

Junior Design and Project Engineer | Jun 2026 – Present

Tesseract

Working as a Junior Design and Project Engineer, contributing to end-to-end product development across design and manufacturing. Involved in 3D modeling and assembly design (Fusion 360), 3D scanning and reverse engineering, cutting operations, 3D printing, project handling from concept to final part, engineering drawings, and technical documentation.

Internship | Mechanical Intern | 1 June – 30 June

Indroyd Labs Pune

Research and design of DNA Kinetics (rotating screen), Rotoscope (horizontal screen movement) and on Matrix wall using Solidworks CAD Software.

PROJECTS

Staircase Climbing Robot

Built functional prototype and design of staircase climbing robot using lead screw & rack-and-pinion for smooth vertical/horizontal transitions.

ACHIEVEMENTS

ADAPTIVE WHEEL CHAIR | TNWISE HACKATHON 2025

Designed an adaptive wheelchair with interchangeable seats and additional support features to assist differently-abled users. Focused on ergonomic design and sensor-based movement assistance

PROJECTS & CONFERENCE

CNN-Based Leaf Image Analysis to Enhance Plant Disease Detection Accuracy

Presented a CNN model for plant disease detection using MobilenetV2 pretrained data at the National Conference on AI, IoT & Data-Driven Transformation (NCAIDT 2025) organized by B.M. Institute of Engineering & Technology (BMIET), Sonipat, Haryana.

TECHNICAL SKILLS - SOLIDWORKS (ASSEMBLY, ANALYSIS & SIMULATION) PLC - CATIA (PART DESIGN) - PYTHON (PROBLEM SOLVING) - Embedded Systems & IoT – Raspberry Pi, ESP32, - Arduino, Blynk, Sensor Integration	ADDITIONAL SKILLS - PRESENTATION DESIGN (POWERPOINT, CANVA) - MS WORD - VIDEO EDITING (CLIPCHAMP)
CERTIFICATES - Winner – TNWISE Hackathon 2025 (Adaptive Wheelchair) - Shortlisted – SIH Internal Hackathon 2024 (Water Cleaning Bot) - NSS Best Volunteer Award 2023 2nd Place – Campaigning Contest (College Club) - Conference Presentation – National Conference on AI, IoT & Data-Driven (NCAIDT)	LANGUAGES ENGLISH (fluent) HINDI (fluent) MARATHI (fluent) TAMIL (intermediate)
